# Piero Lissoni

Seregno (MB), 1956

Lissoni's design projects are discreet, though a closer look shows they are the result of painstaking refinement, with economy as their strong point. His knowledge of the manufacturing process has allowed him to work for long stints as the art director at Boffi, Porro, and Living Divani. Graduating in Architecture from the Milan Polytechnic in 1985, he heads up a firm that has progressively grown until it comprises graphics and architectural divisions. His most recent creations are the headquarters of Living Divani in Anzano al Parco (2007) and Matteograssi in Giussano (2010).
